'Other' Spanish Theatres challenges established opinions on modern Iberian theatre through a consideration of the roles of contrasting figures and companies who have impacted upon both the practice and the perception of Spanish and European stages. In this broad and detailed study, Delgado selects six subjects which map out alternative readings of a nation's theatrical innovation through the last century. These six subjects include Margarita Xirgu, Enrique Rambal, María Casarest and Nuria Espert. The genre of 'sentimental romance' re-examined and redefined. LEARN SPANISH NEWS Vol.2: English & Spanish THIS EDITION: The dual-language text has been arranged into sentences and shorter paragraphs for quick and easy cross-referencing. The source text is the Spanish language edition of Voice of America (VOA). The Spanish text has been translated into English for this dual-language project. The reader can choose between four formats: Section 1: English to Spanish Section 2: Spanish to English Section 3: English Section 4: Spanish A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language: to be able to read only in the foreign language, and extract enough understanding to continue the language learning process fruitfully this way. A reader might like to go back to reading dual-language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going back to the same 'old' news, you are going over words, word patterns, and passages with which you already have a certain familiarity. The process of reinforcement, learning or retaining of what is new, and exposure to what is unfamiliar, is much easier this way — even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current (and less relevant) over time. If you are having trouble with the level of difficulty in the text, a suggested path for learning languages is as follows: Familiarise yourself with a basic language instruction book — or re-read the one you have. Once a student has studied the basics, a suitable book about basic grammar can be helpful. The suggestion is that any grammar book be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the grammar book you feel you can digest — maybe even the whole book — skipping over what is not easily

understood. After this, read through a portion of text in a book called 'Spanish Sentences', by 2LanguageBooks, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Even repeatedly seeing a word that you remember seeing listed as a 'subject pronoun' or a 'third person plural' verb of some sort is a great help. Then, depending on your inclination, return to the grammar book (or your basic Spanish book), or move on to lengthier bilingual text — like in 2Language Books texts containing news or stories, for example —, or find some suitable Spanish text: a simple novel, a Spanish news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line resources that go further — dictionaries with a verb conjugation 'search' option. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources, an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources. (A Dual-Language Book Project) 2Language Books CUADROS offers Introductory and Intermediate Spanish students an individualized language learning experience within an easy-to-use, 4-volume, 4-semester framework. This book may seem a simple accumulation of twenty-one public space projects in eight Latin American cities. On closer inspection, the presentation of project descriptions, photographs, and annotated drawings reflects a concern to analytically explain the operative aspects at work. The publication is not intended to serve only as a catalogue, guide, or manual on how to produce public space in spontaneous settlements. Rather, it goes beyond the aims of an index of best practices. It is intended, instead, as an empirical base for a critical and theoretical engagement with the problematic of development, social inclusion, public investment, (in)formal settlement, civil society and the public sphere. The publication achieves its final function at this third level, by providing a compelling argument to expand the agency of architects and urban designers and creatively find ways of justifying, financing, and building public spaces in communities —spaces that have a catalytic effectiveness in achieving significant urban and social transformation. This book was awarded by a Graham Foundation Grant and CAF Development Bank of Latin America. Unlike conventional grammars, it focuses on those areas of vocabulary and grammar which cause most difficulty to English speakers. It fully illustrates the differences between the Spanish of Spain and Latin America, and looks in detail at register variation. Complete with a full word index, this clear and easy-to-consult text guides students through the richness and diversity of this major world language. This new edition has been extensively revised and updated to take a fuller account of Latin-American (particularly Mexican) usage. The vocabulary sections have been significantly expanded, and now include examples which contextualize each word or expression. The presentation of many sections has been improved to make reference even easier than before, and some completely new material has been added on semi-technical vocabulary and Anglicisms. Presenting and interrogating an array of texts and discourses, this collection brings into focus a broad range of topics whose common denominator is the intersection between cultural productions and politics in different moments of the history of Latin America and Spain. From the struggles of class distinction, identity and community in 19th and 20th century and contemporary Latin America as explored in photography, literature and film, to how political and sexual transgressions from medieval times to the present are portrayed in Hispanic literature, and the ways that canonical and non-canonical texts in Spain have been defying hegemonic power relations in the 20th century and beyond. This volume provides fresh approaches from well-established scholars, as well as from a new generation of researchers whose works enlighten the reader about the rich facets of such intersections. This publication also offers a background to pursue further research in these areas and to serve the general public interested in Latin American and Spanish literary and cultural studies, and those seeking a greater understanding of social and economic change in both Latin America and Spain: specifically, issues of inclusion and citizenship; the constraints on state power in the neoliberal era; the strategies used by texts to create subjects that are not bound to conventional identity formations; and the challenges and possibilities of subverting the gaze of the institutional spectator. *Rutas* contains a variety of activities that encourage students to discuss contemporary issues and express abstract ideas in their second language. *Rutas* provides targeted linguistic support to aid students in expressing their opinions, allowing them to feel more engaged and confident in their Spanish learning. "These critical studies propose innovative readings and overall reformulations of the texts and authors that stand as representative of the period for the contemporary reader. The first group of articles refers to reports, chronicles, and Renaissance epics, a vast block of texts that fall in most cases halfway between history and narrative fiction, and examine the experiences of the discovery, the conquest, and the colonization of the new territories. The second group concentrates on regionally marked texts from the Baroque period, especially those of the central figure of the Mexican nun poet and intellectual, Sor Juana In s de la Cruz. Finally, there are some essays on representative texts of the latter part of the colonial period."--Publisher's description. This book focuses on three authors coming of age at an important moment in Spanish literary history and in world history at large. These authors incorporated into their novels the new ideas that they found in the writing of many foreign authors that were essential to their development. This book comprises various chapters which explore a variety of topics related to the manner in which ideological and epistemological changes in the 19th, 20th and 21st centuries shaped the Spanish language, literature, and film, among other forms of expression, in both Spain and Latin America, and how these media served the purpose of spreading ideas and demands. There are articles on ideological representations of linguistic differences and sameness; linguistic changes associated with loan words and the ideas they bring in modifying our communicative landscape; the role of the Catholic religion on the construction of our dictionary; analysis of some political discourses, ideologies and social imaginaries; new visions of old literature (a return to the parody in the Middle Ages to analyze its modernity) and postmodern narrative; discussions on contemporary Spanish poetry and Central American literature; a new return to the liberation philosophy by analyzing Ellacuría's work; and several studies about concepts such as capitalism, patriarchy, identity, masculinity, homosexuality, globalization, and the Resistance in several forms of expression.
