Aurore of the Yukon Oct 26 2019 "She's just a girl!" shouted Windy Bill. When Aurore hears these words, she knows notorious Alaskan bandit Soapy Smith is about to find out everything. How will she get her mother's money back now? How will she expose Soapy and his gang? How will she escape? Aurore, her mother and little brother have set off for Uncle Thibault's lodge in the Yukon after the death of Aurore's father, little knowing they are headed for the Klondike Gold Rush and the adventure of a lifetime. The hardships of the Chilkoot Trail. The roaring rapids of the Yukon River. The grasping greed of Soapy's gang. Aurore must dig deeper, think harder and be braver than she ever thought possible to show Soapy and his gang what a girl-and her new Tlingit friend Louise and a Yukon river boy named Kip-can do. "Well, she outsmarted you!" replied Soapy Smith with a snarl, opening the door to Aurore's hiding place Set in the historic Klondike Gold Rush of 1898, and inspired by a real girl's story, *Aurore of the Yukon* is an exciting adventure written to both entertain and educate young readers. Part of the MacBride Yukon Kids Series. "Real fun real history!"-Patricia Cunning, MacBride Museum

Raising the Floor Aug 05 2020 Raising the Floor confronts America's biggest economic challenge-the fundamental restructuring of the economy and the emerging disruptive technology that threaten secure jobs and income. Andy Stern convincingly shows why it is time to consider a universal basic income as the nation's twenty-first-century solution to increasing inequality. In 2010, troubled by watching families chase the now-elusive American Dream, Andy Stern began a five-year journey to investigate how technology will impact jobs and the future of work. Stern, formerly the head of the nation's most influential and fastest-growing union, the Service Employees International Union, investigated these issues with a wide range of CEOs, futurists, economists, workers, entrepreneurs, and investment bankers who are shaping the future. The sobering assessment that emerged from his research-across the political spectrum, from libertarians at the CATO Institute to the leaders of the progressive left-is that this time is different: there will be meager benefits that come with full-time work and fewer good jobs overall. Facing such a challenging moment, Stern's solution is fittingly bold: to establish a universal basic income by eliminating many current government programs and adding new resources. At once vivid, provocative, and pragmatic, Raising the Floor will spark a national conversation about creating the new American Dream.

Morphotectonics Dec 29 2019 Morphotectonics, the relation between geomorphology and (neo)tectonics is

fundamental to the understanding of landscape evolution. Stressing mainly the quantitative interpretation of field observations, this monograph compares the morphological structure of drainage systems, river courses, glacial forms, volcanic landscapes and mass movements with joint orientations. The latter are indicative of the neotectonic stresses; and thus inferences on the genesis of the morphological forms can be drawn. The data on outcrops on all six continents and on islands in all major oceans have been acquired to a large extent by the author himself. The book, therefore, represents a first-hand account of the work and its relevance which has been done worldwide over the last 30 years.

Nationalism and Identity May 02 2020 The nation-state of Trinidad and Tobago offers a unique nation-space, as Homi K Bhabha would say, for the study of the forces and ideologies of nationalism. This book reveals how this ethnically diverse nation, independent for less than forty years, has provided fertile ground for the creative tension between the imagination of the writer and the official discourse on nationalism. Harney argues that this discourse has in turn been embedded in a struggle that propelled the nation's story. He explores the influences on the sense of national identity caused by migration and the ethnicization of migrant communities in the cities. Adding to the comparative tone of much of this book, models of nationalism and ethnicity, often based on other societies, are tested against the

imaginings of Trinidad by such essayists as VS Naipaul, CLR James, Willi Chen, Valerie Belgrave and Earl Lovelace. Using the wealth of imaginative literature produced by Trinidadians at home and abroad over the last forty years, together with European-based scholarship on theories of nationalism, this book provides a fascinating understanding of the forging of a national identity.

Hydromania Jan 10 2021 Coeur d'Alene's love/hate relationship with boat racing is at the center of this comprehensive history of the Diamond Cup race for unlimited hydroplanes. The early origins of competitive boat racing on Coeur d'Alene Lake, the backstory of how the small lakeside community came to host ten years of the Diamond Cup, the true story of the civil disturbances that would cast a lasting pawl on the event, the real reasons behind the decision to stop hosting the races, and the drama and controversy that led to the races being banned from the city are all covered in depth. The stories of the civic leaders, race volunteers, boat owners, drivers, and other key individuals that came together to put on the exciting spectacle that was the Diamond Cup are lovingly recounted. Of interest to boat racing fans and those curious about one of the premier sporting events in the history of North Idaho. Illustrated with over 100 photographs.

**Transfer of Learning from a Modern
Multidisciplinary Perspective** Feb 29 2020 The
chapters contained in the book present a new and
exciting set of conceptual tools that will not only allow us
to think about transfer in more productive ways, but will
also enable the development of educational and
measurement tools that will greatly facilitate our ability

to educate the children in our schools. This volume is eclectic in bringing together researchers from psychology and science education (especially physics)—who would not normally present their ideas under the same forum—to share their views and perspectives on transfer. What we believe has emerged is a fresh look at transfer issues from a multidisciplinary perspective.

Active Learning: Theoretical Perspectives,

Empirical Studies and Design Profiles Jun 26 2022

This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence-based pedagogies in higher education, at something a level approaching large-scale impact. By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation, we aim to change the conversation and focus on how we work and learn together - i.e. extending the implementation and knowledge of co-design methods. In this first edition of our Research Topic on Active Learning, we highlight two (of the three) types of publications we wish to promote. First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community. These types of studies constitute the "practice pull" that we see as a necessary counterbalance to "knowledge push" in a more productive pedagogical innovation ecosystem based on research-practitioner partnerships. Second are studies empirically examining the implementations of evidence-based designs in naturalistic settings and under naturalistic conditions. Interestingly, the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as "in-betweens" straddling the two worlds. As a result, these publications represent both the rigours of research and the pragmatism of reflective practice. In forthcoming editions, we will add to this collection a third type of publication -- design profiles.

These will present practitioner-developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners, instructional designers and researchers alike. We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner-researcher interactions that promote co-design in pedagogical innovation.

The Three Sisters Indian Cookbook Sep 25 2019

Priya, Sereena and Alexa Kaul's family left Kashmir to live in the UK. The three girls grew up in Derbyshire and loved rushing home from school to watch their mother make delicious dahl, korma and rogan josh with fresh spices from brought from Kashmir. When they had families of their own they longed for a spice box like the one their mother had - full of all the spices needed to make the recipes they craved from their childhood. So they created a spice box with thirteen essential spices and collected 100 family recipes that can easily made at home - just add ingredients from any supermarket or high street grocer. This book is the three sisters' own collection of easy to make Indian dishes. Whether you are a traditional or a creative cook or you have a busy lifestyle you will enjoy making and creating these delicious recipes. There is detailed section on how to identify and use fresh spices and plenty of information about the medical and culinary uses of ginger, cardamom, turmeric and more. Nearly all the dishes can be made in advance and frozen so ditch the take away menu and make your own fresh versions of our favourite cuisine with real Indian flavours and spices.

Fair Shot Aug 24 2019 Facebook co-founder Chris Hughes makes the case that one percenters like him should pay their fortune forward in a radically simple way: a guaranteed income for working people. The first half of Chris Hughes' life followed the perfect arc of the American Dream. He grew up in a small town in North Carolina. His parents were people of modest means, but he was accepted into an elite boarding school and then Harvard, both on a scholarship. There, he met Mark Zuckerberg and Dustin Moskovitz and became one of the co-founders of Facebook. In telling his story, Hughes demonstrates the powerful role fortune and luck play in today's economy. Through the rocket-ship rise of Facebook, Hughes came to understand how a select few can become ultra-wealthy nearly overnight. He believes the same forces that made Facebook possible have made it harder for everyone else in America to make ends meet. To help people who are struggling, Hughes proposes a simple, bold solution: a guaranteed income for working people, including unpaid caregivers and students, paid for by the one percent. Hughes believes that a guaranteed income is the most powerful tool we have to combat poverty. Money – cold hard cash with no strings attached – gives people freedom, dignity and the ability to climb the economic ladder. A guaranteed income for working people is the big idea that's missing. This book, grounded in Hughes' personal experience, will start a frank conversation about how we earn, how we can combat

income inequality, and ultimately, how we can give everyone a fair shot.

In Our Hands Nov 07 2020 Imagine that the United States were to scrap all its income transfer programs—including Social Security, Medicare, and all forms of welfare—and give every American age twenty-one and older \$10,000 a year for life. This is the Plan, a radical new approach to social policy that defies any partisan label. First laid out by Charles Murray a decade ago, the updated edition reflects economic developments since that time. Murray, whose previous books include *Losing Ground* and *The Bell Curve*, demonstrates that the Plan is financially feasible and uses detailed analysis to argue that many goals of the welfare state—elimination of poverty, comfortable retirement for everyone, universal access to healthcare—would be better served under the Plan than under the current system. Murray's goal, shared by Left and Right, is a society in which everyone, including the unluckiest among us, has the opportunity and means to construct a satisfying life. *In Our Hands* offers a rich and startling new way to think about how that goal might be achieved.
