How to Prevent the Next Pandemic Aug 25 2022 From the author of the #1 New York Times best seller *How to Avoid a Climate Disaster: The COVID-19 pandemic isn't over, but even as governments around the world strive to put it behind us, they're also starting to talk about what happens next. How can we prevent a new pandemic from killing millions of people and devastating the global economy? Can we even hope to accomplish this? Bill Gates believes the answer is yes, and in this book he lays out clearly and convincingly what the world should have learned from COVID-19 and what all of us can do to ward off another disaster like it. Relying on the shared knowledge of the world's foremost experts and on his own experience of combating fatal diseases through the Gates Foundation, he first helps us understand the science of infectious diseases. Then he shows us how the nations of the world, working in conjunction with one another and with the private sector, can not only ward off another COVID-like catastrophe but also eliminate all respiratory diseases, including the flu. Here is a*

clarion call—strong, comprehensive, and of the gravest importance—from one of our greatest and most effective thinkers and activists.

Searching for the New Black Man Feb 07 2021 Using the slave narratives of Henry Bibb and Frederick Douglass, as well as the work of W. E. B. Du Bois, James Baldwin, Walter Mosley, and Barack Obama, Ronda C. Henry Anthony examines how women's bodies are used in African American literature to fund the production of black masculine ideality and power. In tracing representations of ideal black masculinities and femininities, Henry Anthony shows how black men's struggles for gendered agency are inextricably bound up with their complicated relation to white men and normative masculinity. The historical context in which Henry Anthony couches these struggles highlights the extent to which shifting socioeconomic circumstances dictate the ideological, cultural, and emotional terms upon which black men conceptualize identity. Yet, Henry Anthony quickly moves to texts that challenge traditional constructions of black masculinity. In these texts Henry Anthony traces how the emergence of collaboratively-gendered discourses, or a blending of black female/male feminist consciousnesses, are reshaping black masculinities, femininities, and intraracial relations for a new century.

The New Unhappy Lords Apr 09 2021 As ever more people emerge from the prolonged state of lethargy to find the old familiar world destroyed, the once cherished values scorned, the signposts to what had seemed an assured national future obliterated, they ask in bewilderment: ""What is behind it all?"" Jolted into an awareness of mysterious forces at work causing universal confusion and chaos, their next question swiftly follows: ""Who is behind it all?"" The New Unhappy Lords endeavours to answer both questions, revealing much of the secret history of our times and exposing the conspiracy which shapes that history to dragoon mankind into a One World dictatorship. The New Unhappy Lords is essential reading for patriots brave enough to face harsh facts and fight for the sovereign independence of their countries against the immense might of their internationalist enemies.

The Covid Consensus Dec 29 2022 Why does Western pandemic policy have support across the political spectrum, when its social impacts conflict with ideology on both right and left? During the pandemic, the Left has agreed that 'following the science' with hard lockdowns is the best way to preserve life; only irresponsible right-wing populists oppose them. But social science shows that while the rich have got richer, those suffering most under lockdown are the already disadvantaged: the poor, the young, and—most overlooked of all—the

Global South. The UN is predicting tens of millions of deaths from hunger and warning that decades of development are being reversed. Equally, why have conservatives backed lockdowns and other major interventions, creating the big state that they usually abhor? These contradictions within the great consensus of Western pandemic response are part of a broader crisis in Western thought. Toby Green peels back the policy paradoxes to reveal irreconcilable beliefs in our societies. These deep divisions are now bursting into the open, with devastating consequences for the global poor.

The New Economy of Oil Jan 18 2022 'The global oil industry is an exceptionally complex one, and its importance to governments, business and society as a whole is immense...The New Economy of Oil aims to set out the challenges and choices ahead, and it makes a fascinating read.' Business News 'John Mitchell, in this excellent book, is looking at the new elements which may influence, or indeed determine, the shape of the oil industry, the behaviour of the main actors, the forces of supply and demand, and the price path.' From the Foreword by Robert Mabro, Director, Oxford Institute for Energy Studies 'The New Economy of Oil is a superior, state-of-the-art tour of a conventional scenario about the near future of the world's oil and oil economy and polity.' Society and Natural Resources In a world where international accountability is increasingly important,

the oil industry faces an unprecedented series of challenges. Mitchell's main theme is that the acceptability of oil is becoming more important than its availability. The implications are enormous, given the huge current dependence on oil of so much industry and government revenue. This book is of importance to all those involved with oil - from industry professionals to competitors, commentators, investors, managers, politicians and regulators.

Lost Scriptures Feb 19 2022 A companion volume to *Lost Christianities*, this remarkable anthology of long-lost Christian writings that were never included in the New Testaments includes fifteen additional gospels, thirteen epistles, five non-canonical Acts of the Apostles, Apocalypes and Secret Books, and brief introductions to each. The New Bottoming Book Nov 16 2021 Three decades ago, this book and its companion volume "The New Topping Book" began teaching tens of thousands of people the joyous arts of BDSM topping and bottoming - not just "how-to," but "why-to"... the insider details of emotional support and ethical interaction during kinky play. Since then, the growing popularity of BDSM, and the blossoming of the Internet as a source of information and connection, have created a whole new universe of possibilities for players. Now, the completely updated revised New Bottoming Book and New Topping Book give even more insights and ideas, updated for a new millennium, about how to be a successful, popular player! What the experts are saying "The only way I can think of to learn more about bottming than Dossie Easton and Janet Hardy teach you in [The New Bottoming Book] is to go out and bottom for yourself." - William A. Henkin, Ph.D., co-author, *Consensual Sadomasochism*

The Bible onscreen in the new millennium Aug 13 2021 The remarkable commercial success of Mel Gibson's *The Passion of the Christ* in 2004 came as a surprise to the Hollywood establishment, particularly considering the film's failure to find production funding through a major studio. Since then the Biblical epic, long thought dead in terms of mainstream marketability, has become a viable product. This collection examines the new wave of the genre, which includes such varied examples as Darren Aronofsky's *Noah* (2014) and Ridley Scott's *Exodus: Gods and Kings* (2014), along with the telenovelas of Latin America. Such texts follow previous traditions while appearing distinct both stylistically and thematically from the Biblical epic in its prime, making academic consideration timely and relevant. Featuring contributions from such scholars as Mikel J. Koven, Andrew B. R. Elliott and Martin Stollery, and a preface from Adele Reinhartz, the book will be of interest to students and scholars of film, television and religion.

Hate in the Homeland Apr 28 2020 "Hate in the Homeland" shows how tomorrow's far-right nationalists are being recruited in surprising places. Cynthia Miller-Idriss shows how far-right groups are swelling their ranks and developing

their cultural, intellectual, and financial capacities in a variety of mainstream settings, from college campuses to YouTube cooking channels. Essential for understanding the tactics and underlying ideas of modern far-right extremism, this eye-opening book takes readers into the mainstream spaces where today's far right is engaging and ensnaring young people, and reveals innovative strategies we can use to combat extremist radicalization. -- From publisher's description.

Sword and Citadel Sep 26 2022 Recently voted the greatest fantasy of all time, after *The Lord of the Rings* and *The Hobbit*, Gene Wolfe's *The Book of the New Sun* is an extraordinary epic, set a million years in the future, on an Earth transformed in mysterious and wondrous ways, in a time when our present culture is no longer even a memory. Severian, the central character, is a torturer, exiled from his guild after falling in love with one of his victims, and journeying to the distant city of Thrax, armed with his ancient executioner's sword, *Terminus Est*. This edition contains the second two volumes of this four volume novel, *The Sword of the Lictor* and *The Citadel of the Autarch*.

Blacks in the New Deal: The Shift from an Electoral Tradition and its Legacy

Apr 21 2022 No group of American minority voters shifted allegiance more dramatically in the 1930s than Black Americans did. Up until the New Deal era, Blacks had shown their traditional loyalty to the party of Lincoln by voting overwhelmingly the Republican ticket. By the end of F.D. Roosevelt's first administration, however, they tremendously voted the Democratic ticket. The decades long, wholesale attachment of Blacks to the party of Lincoln, with its laudable efforts to support Blacks (*Emancipation Proclamation* and *Reconstruction*) was understandable and inevitable enough. The anomaly was the massive shift by Blacks to the Democratic Party, traditionally identified with its long list of constant anti-Black and premeditated opposition to Black liberation: opposition to emancipation and Reconstruction, and with an ongoing record of all forms of racial discrimination, segregation, disfranchisement, exclusion, white primaries, and white supremacy. The transformation of the Black vote from solidly Republican to solidly Democratic did not happen instantaneously, but rather it developed over decades of maturing as a result of the amalgamated efforts of Presidents and Black leaders. The move of Black voters toward the Democratic Party was part of a nationwide trend that had occurred with the creation of the Roosevelt Coalition of 1936. This national shift would make the Democrats the majority party for the next several decades including a very decisive margin of Black voters in the balance of power.

The New Common Oct 27 2022 This open access book presents the scientific views of some fifty experts on how they believe the COVID-19 pandemic is currently affecting society, and how it will continue to do so in the years to come. Using the concept of a "common" (in the sense of common values, common places, common goods, and common sense), they elaborate on the transition from an Old Common to a New Common. In carefully crafted chapters, the authors address expected shifts in major fields like health, education, finance, business, work, and citizenship, applying concepts from law, psychology, economics, sociology, religious studies, and computer science to do so. Many of the authors anticipate an acceleration of the digital transformation in the forthcoming years, but at the same time, they argue that a successful shift to a new common can only be achieved by re-evaluating life on our planet, strengthening resilience at an individual level, and assuming more responsibility at a societal level.

The Premonition Jul 24 2022 THE SUNDAY TIMES AND NEW YORK TIMES BESTSELLER 'Superb ... It is tremendous fun, tremendously told' The Times 'A fluid intellectual thriller' Daily Telegraph From the global bestselling author of The Big Short, the gripping story of the maverick scientists who hunted down Covid-19 'It's a foreboding,' she said. 'A knowing that something is looming around the corner. Like how when the seasons change you can smell Fall in the air right before the leaves change and the wind turns cold.' In January 2020, as people started dying from a new virus in Wuhan, China, few really understood the magnitude of what was happening. Except, that is, a small group of scientific misfits who in their different ways had been obsessed all their lives with how viruses spread and replicated - and with why the governments and the institutions that were supposed to look after us, kept making the same mistakes time and again. This group saw what nobody else did. A pandemic was coming. We weren't prepared. The Premonition is the extraordinary story of a group who anticipated, traced and hunted the coronavirus; who understood the need to think differently, to learn from history, to question everything; and to do all of this fast, in order to act, to save lives, communities, society itself. It's a story about the workings of the human mind; about the failures and triumphs of human judgement and imagination. It's the story of how we got to now. The New Fire Sep 21 2019 AI is revolutionizing the world. Here's how democracies can come out on top. Artificial intelligence is revolutionizing the modern world. It is ubiquitous—in our homes and offices, in the present and most certainly in the future. Today, we encounter AI as our distant ancestors once encountered fire. If we manage AI well, it will become a force for good, lighting the way to many transformative inventions. If we deploy it thoughtlessly, it will advance beyond our control. If we wield it for destruction, it will fan the flames of a new kind of war, one that holds democracy in the balance. As AI policy experts Ben Buchanan and Andrew Imbrie show in *The New Fire*, few choices are more urgent—or more fascinating—than how we harness this technology and for what purpose. The new fire has three sparks: data, algorithms, and computing power. These components fuel viral disinformation campaigns, new hacking tools, and military weapons that once seemed like science fiction. To autocrats, AI offers the prospect of centralized control at home and asymmetric advantages in combat. It is easy to assume that democracies, bound by ethical constraints and disjointed in their approach, will be unable to keep up. But such a dystopia is hardly preordained. Combining an incisive understanding of technology with shrewd geopolitical analysis, Buchanan and Imbrie show how AI can work for democracy. With the right approach, technology need not favor tyranny.

Mao's Children in the New China Jun 23 2022 Around 18 million young Chinese people were sent to the countryside between 1966 and 1976 as part of the Cultural Revolution. *Mao's Children in the New China* allows some of them to tell their moving stories in their own voices for the first time. In this inspiring collection of interviews with former Red Guards, members of the first generation to be born under Chairman Mao talk frankly about the dramatic changes which have occurred in China over the last two decades. In discussing the impact these changes have had on their own lives, the former revolutionaries give a direct insight into how ex-Maoists view contemporary China, revealing an attitude perhaps more critical than that of most Western commentators. These poignant memoirs tell the very personal stories of how people from all walks of life were affected by both the cultural revolution and Deng Xiaoping's economic reforms. They cover subjects as diverse as marriage and divorce, the privatization of industry, family relationships, universities and the stock market. *Mao's Children in the New China* is essential reading for all those interested in learning more about

the personal and social history of modern China.

Apollo's Arrow Oct 15 2021 A piercing and scientifically grounded look at the emergence of the coronavirus pandemic and how it will change the way we live—"excellent and timely." (The New Yorker) Apollo's Arrow offers a riveting account of the impact of the coronavirus pandemic as it swept through American society in 2020, and of how the recovery will unfold in the coming years. Drawing on momentous (yet dimly remembered) historical epidemics, contemporary analyses, and cutting-edge research from a range of scientific disciplines, bestselling author, physician, sociologist, and public health expert Nicholas A. Christakis explores what it means to live in a time of plague—an experience that is paradoxically uncommon to the vast majority of humans who are alive, yet deeply fundamental to our species. Unleashing new divisions in our society as well as opportunities for cooperation, this 21st-century pandemic has upended our lives in ways that will test, but not vanquish, our already frayed collective culture. Featuring new, provocative arguments and vivid examples ranging across medicine, history, sociology, epidemiology, data science, and genetics, Apollo's Arrow envisions what happens when the great force of a deadly germ meets the enduring reality of our evolved social nature.

The Hueys in The New Sweater Jan 26 2020 The New York Times Best Illustrated Picture Book, now in an oversized trim for added value and fun! The Hueys are small and mischievous, unique compared to the world's other creatures--but hardly unique to one another. You see, each Huey looks the same, thinks the same, and does the same exact things. So you can imagine the chaos when one of them has the idea of knitting a sweater! It seems like a good idea at the time--he is quite proud of it, in fact--but it does make him different from the others. So the rest of the Hueys, in turn, decide that they want to be different too! How? By knitting the exact same sweater, of course! The first in a series of child-friendly concept books by the #1 bestselling artist of The Day the Crayons Quit, How to Catch a Star, Stuck, and This Moose Belongs to Me, The New Sweater proves that standing apart can be accomplished even when standing together.

The New Traditional Mar 20 2022 Immerse yourself in the traditions that have defined our cultures and reveal our connection to what make us human. A new

generation wants to lead a more meaningful and sustainable life by reconnecting with heritage and traditions. They are looking to the craftsmanship, lifestyle, and unique experiences of the people keeping these practices alive. *The New Traditional* tells the stories of those devoting their energy, skills, and creativity to crafts such as blacksmithing, distilling spirits, and globe making, and its authors revisit the customs of growing old varieties of apple, beekeeping and producing honey in gardens or on rooftops, and being modern shepherds in Italy or Iceland. They always seek to help preserve cultural traditions and share them with likeminded people.

The New Oxford Book of Literary Anecdotes Aug 21 2019 In *The New Oxford Book of Literary Anecdotes*, master anthologist John Gross brings together a delectable smorgasbord of literary tales, offering striking new insight into some of the most important writers in history. Many of the anecdotes here are funny, others are touching, outrageous, sinister, inspiring, or downright weird. They show writers from Chaucer to Bob Dylan acting both unpredictably and deeply in character. The range is wide--this is a book which finds room for Milton and Shakespeare, Mark Twain and Walt Whitman, Kurt Vonnegut and P. G. Wodehouse, Chinua Achebe and Salman Rushdie, James Baldwin and Tom Wolfe. It is also a book in which you can find out which great historian's face was once mistaken for a baby's bottom, which film star experienced a haunting encounter with Virginia Woolf not long before her death, and what Agatha Christie really thought of her popular character Hercule Poirot. It is in short an unrivalled collection of literary gossip offering intimate glimpses into the lives of authors ranging from Shakespeare to Philip Roth--a book not just for lovers of literature, but for anyone with a taste for the curiosities of human nature.
