bone at the knee joint it runs diagonally through the inside of the knee and gives the knee joint stability. ACLS is an acronym that stands for advanced cardiac life support. ACLS teaches healthcare professionals advanced interventional protocols and algorithms for the treatment of cardiopulmonary emergencies. These include primary survey, secondary survey, advanced airways, myocardial infarction, cardiac arrest, tachycardias, bradycardias, and stroke. In ACLS, the term airway is used to refer both to the patient and the device between the lungs and the outside world, and victim in the devices that help keep that airway open. The simplest way to manage an airway is the head-tilt chin-lift, which creates the straightest path for air. Certification online is AHA approved because it is instructor-led via Zoom and rental equipment arrives in under 5 business days. So if you are rushed, get a head start on your order or track down some equipment from your local AHA training center. Medical professionals are even issued continuing education units. Best of all, HeartCode ACLS Online is a self-directed, comprehensive e-learning program that uses adaptive learning technology to allow learners to acquire and demonstrate advanced cardiac life support skills using a personalized learning path that adapts in real time to a learner's performance. The program is designed for healthcare professionals who need ACLS. ACLS is an advanced course that builds on the foundation of lifesaving BLS skills, emphasizing the importance of continuous high-quality CPR and team dynamics.
