Get Through PLAB Part 1 is an essential revision tool for all candidates preparing for the examination. PLAB Part 1 consists of 70% extended matching questions and 30% single best answer (SBA) questions. As a companion text to the bestselling PLAB: 1000 Extended Matching Questions, this book provides 500 practice SBA questions covering topics that reflect the current PLAB syllabus and presented in a format identical to the exam itself. The author, Una Coales, who has taken and successfully passed the exam herself, offers helpful hints and tips on what to expect and how to negotiate the examination successfully. Get Through PLAB Part 1 is recommended to all candidates sitting the PLAB Part 1 exam, and their trainers. SBA Questions for the Part 2 MRCOG is a valuable preparation resource aimed at those specialising in obstetrics and gynaecology who are planning to take the Part 2 MRCOG examination. It contains two hundred practice single best answer questions written by MRCOG question writers, with accompanying explanations and references. It also contains an introduction to the new format of the examination and the rationale for the changes. The first section consists of two hundred single best answers allowing the reader to test their knowledge. The second section lists the correct response accompanied by an explanation and suggestions for further reading. SBA Questions for the Part 2 MRCOG is the only official preparation book produced by the RCOG and is therefore essential reading for candidates sitting this examination in its new format. A must-have resource for those preparing for the MJDF, MFDS, ORE, and other dental examinations Single best answer (SBA) questions are widely used in dental examinations including the Membership of the Joint Dental Faculties (MJDF), Member of the Faculty of Dental Surgery (MFDS), and the Overseas Registration Exam (ORE). Single Best Answer Questions for Dentistry is a comprehensive revision tool

designed to help dental students be thoroughly prepared on exam day. Each clearly written SBA question is accompanied by an accurate answer and a full explanation, providing students with a quick and easy-to-access way to revise. The SBAs cover a broad range of specialties within dentistry such as restorative dentistry, oral surgery, oral pathology, paediatric dentistry and orthodontics, periodontology, oral medicine, and more. All terms throughout the book conform to the latest evidence and guidelines, such as the most recent classification of periodontal disease, and match the level of knowledge required for success on current dental examinations. Written by a leading dental practitioner, this valuable resource: Comprises 10 chapters, organised by specialty, each containing 20 to 30 SBAs with their associated answers and explanations Covers various dental specialties and topics including restorative dentistry, radiology, pharmacology, human disease, and dental materials Presents a simple and efficient question-and-answer format that is ideal for exam revision Helps strengthen students' skills in clinical problem solving and decision making Containing more than 280 questions of varying difficulty levels as well as numerous high-quality images and radiographs, Single Best Answer Questions for Dentistry is essential reading for all dental students and a useful tool for practicing dentists wanting to test or refresh their knowledge. The questions are divided into two sections - 100 scenario-based questions present clinical vignettes with questions to test students' knowledge within a specific context and 200 knowledge-based questions offering a wide mix and variety of questions encompassing all of the major medical and surgical specialties. Detailed answers and explanations will help to develop students' learning and understanding. This book provides subject based Single Best Answer style questions for doctors on their Foundation Year rotations and candidates taking their MRCS exam. It includes SBA questions testing factual knowledge and clinical scenarios testing application of basic facts. Detailed answers and explanations enable doctors to revise without the need to read large Anatomy books. Psychiatry PRN is a ground-breaking new resource for students of psychiatry. It majors on providing a practical introduction to the subject, notably clinical skills, together with preparatory material for examinations. The book will boost the confidence of any student approaching their psychiatry placements or examinations. Get Through PLAB Part 1 is an essential revision tool for all candidates preparing for the examination. PLAB Part 1 consists of 70% extended matching questions and 30% single best answer (SBA) questions. As a companion text to the bestselling PLAB: 1000 Extended Matching Questions, this book provides 500 practice SBA questions covering topics that reflect the current PLAB syllabus and presented in a format identical to the exam itself. The author, Una Coales, who has taken and successfully passed the exam herself, offers helpful hints and tips on what to expect and how to negotiate the examination successfully. Get Through PLAB Part 1 is recommended to all candidates sitting the PLAB Part 1 exam, and their trainers. Single Best Answer (SBA) examinations are an increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas. Written by a final year medical student, junior doctors and experienced clinicians, 500 Single Best Answers in Medicine provides invaluable guidance from authors who understand from personal experience that detailed and accurate explanations are the key to successful revision. This book presents 500 SBA-style questions arranged by specialty area as well as a practice exam of random questions. A clear discussion of how the correct answer was reached and other options ruled out for every question is given at the end of each section, making this book an excellent learning aid during all stages of clinical studies, and particularly while preparing for medical finals. Do you want to pass the FRCR Part 2a Exam first time and with a high score? Are you looking for a practice SBAs with detailed answer explanations? Succeeding in the FRCR Part 2a Exam is an essential part of completing radiology training. This comprehensive revision guide contains practice SBAs together with detailed answer explanations covering the six modules of the syllabus. Written by doctors who have successfully passed the FRCR

Part 2a Exam together with a Professor of Radiology Teaching, the questions have been carefully created to simulate the style of the new format. This clear and tim. This book provides subject based Single Best Answer style questions for doctors on their Foundation Year rotations and candidates taking their MRCS exam. It includes SBA questions testing factual knowledge and clinical scenarios testing application of basic facts. Detailed answers and explanations enable doctors to revise without the need to read large Anatomy books. This second edition of '320 Single Best Answer Questions for Final Year Medical Students' is an invaluable resource for medical students preparing for their final examinations. Additionally, the breadth of topics covered and detailed answers expands the versatility of this book to a larger audience including doctors preparing for postgraduate exams and other allied healthcare professionals who will be examined in general internal medicine. This improved edition contains updated and new questions that are in line with the most recent developments in clinical guidelines as well as being written in accordance with the recent changes to medical school examinations. The 320 questions are divided into 11 commonly tested areas of medicine, surgery and sub-specialities. They are designed to provide a comprehensive coverage of the medical school curriculum and to allow practice by speciality or random selection. The questions are written in the format of medical final examinations. The answers provide detailed explanations as to how the correct answer is reached, followed by a clear discussion of how the incorrect answers are ruled out and supplementary information about other important aspects of each question. The answers are designed to allow the reader to further enhance their clinical knowledge, understanding and single best answer technique, thus making this book an excellent aid for exam preparation. Related Link(s) Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team. Single best answer multiple choice questions are considered invaluable in assessing a trainee's ability to apply knowledge to clinical practice. This book comprises six sets of practice papers, each set containing 30 single best answer questions in basic sciences applicable to the practice of anaesthesia, pain management and intensive care. The single best answer stem is presented as a clinical problem followed by a lead-in question and five possible options. The best possible answer to a given question is substantiated by detailed explanation drawn from recent review articles and textbooks in anaesthesia and basic sciences. At the end of the answer section to each question, a useful list of references are provided to aid further reading. These questions will enable candidates to assess how well they can apply their factual knowledge on basic sciences to their clinical practice. Alongside the authors' previously published book, "Single Best Answer MCQs in Anaesthesia: Volume 1 - Clinical Anaesthesia", this book supplements the essential study material for post-graduate examinations in anaesthesia and intensive care medicine. This book is also a valuable educational resource for all trainees and practicing anaesthetists. Practice Single Best Answer Questions for the Final FRCA: A Revision Guide covers the complete syllabus of this new-style exam. The book includes 10 papers, each of which consists of 30 questions on clinical anaesthesia, intensive care medicine and pain management. Each practice paper matches the style,

number and level of questions that candidates will face in their FRCA exam. Written by a group of anaesthetists experienced in teaching clinical anaesthesia and preparing trainees for their exams, every question is supplemented with a thorough explanation, incorporating the latest research and guidelines, and further reading suggestions. The book also includes guidance on how to go about answering single best answer questions. Pitched at just the right level for the exam, Practice Single Best Answer Questions for the Final FRCA: A Revision Guide is an essential resource for all Final FRCA candidates. This book will appeal to candidates appearing for Final MB examinations in the UK and international students preparing for finals; but also has utility for allied healthcare professionals who will be examined in general internal medicine. It contains 320 questions, which have been divided into 11 commonly tested areas of medicine, surgery and sub-specialties, thus allowing for practice by specialty or by random selection. The answers give a detailed explanation of the single best answer, and as well as directly answering the question, there is information about other aspects of each possible answer to allow the reader to broaden their exam preparation. Make this book the last thing you use before you take the exam. · 500+ single best answer (SBA) practice questions are presented according to the Medical Oncology Specialty Certificate Exam blueprint · Answer sections provide detailed descriptions for revision and signposting to appropriate resources · Refers to both National Institute for Health and Care Excellence (NICE) and European Society of Medical Oncology (ESMO) latest guidance · A valuable learning tool for doctors planning to undertake the Medical Oncology SCE and a useful resource for doctors studying for the FRCR (Oncology) and ESMO exams · Produced in partnership with the Association of Cancer Physicians Written by senior trainees and consultants and verified by experienced medical oncology consultants in the style of the specialty certificate exam, this collection of 500 single best answers offers an ideal preparation for success in the Specialty Certificate Examination in Medical Oncology. CONTENTS: Acute oncology, Breast cancer, Carcinoma of unknown primary, Colorectal and anal cancer, Gynaecological cancers, Haematological cancers, Less common cancers, Lung and thoracic cancers, Professional skills, Sarcoma, Scientific basis of malignancy, Skin cancers, Supportive care therapies, Systemic anti-cancer therapies, Upper gastrointestinal and hepatobiliary cancers, Urological and germ cell cancers. The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists. This is an ideal tool for trainee radiologists preparing for their professional certification exams to assess their current knowledge, comprehension and retention of information prior to sitting their exams. The book is targeted at the new style FRCR 2A exam. It reflects the recent changes in exam structure and all of the 520 questions are provided in the new "best of five" format. The book contains explanations and key learning points that are cross-referenced to Grainger & Allison's Diagnostic Radiology and to other leading radiology reference works and journals. This book comprises six sets of single best answer practice papers. Each set contains 30 single best answer questions on physiology, pharmacology, clinical measurement and physics. The scenarios are based on the application of a wide knowledge of basic sciences relevant to the clinical practice of anaesthesia.

*The best possible answer to a given question is substantiated by detailed explanation drawn from recent journal articles and textbooks of anaesthesia and basic sciences. These questions enable the candidates to assess their knowledge in basic sciences and their ability to apply it to clinical practice. Alongside the previously published book **Single Best Answer MCQs in Anaesthesia (Volume I - Clinical Anaesthesia, ISBN 978-1-903378-75-5)**, this book is an ideal companion for candidates sitting postgraduate examinations in anaesthesia, intensive care medicine, and pain management. It will also be a valuable educational resource for all trainees and practising anaesthetists. Written by senior clinicians across a range of specialties, **Data Interpretation for Medical Finals: Single Best Answer Questions** is the perfect way to prepare for data interpretation assessments and clinical practice. Featuring over 200 questions on key topics in medicine, each question is set around an image or investigation, such as an X-ray, CT scan, or blood film, and tests identification and interpretation of the data provided. Thorough explanation of the correct and incorrect answers helps you learn from mistakes. The questions reflect current exam question style and incorporate high quality images, many of which are annotated, and are presented in full colour throughout. **Data Interpretation for Medical Finals** will help build the confidence of all medical students, and Foundation Doctors, as it encourages application of investigation results to clinical decision making. Single best answer (SBA) questions have been introduced into the FRCR Part 2A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to **Final FRCR Part A Modules 4-6 Single Best Answer MCQs** by the same team. Single Best Answer (SBA) examinations are an increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas. Written by a final-year medical student, junior doctors, and experienced clinicians, **450 Single Best Answers in the Clinical Specialties** provides invaluable guidance from authors who understand from personal experience that detailed and accurate explanations are the key to successful revision. The presentation of questions arranged by specialty area, coupled with the clear discussion of how the correct answer was reached and other options ruled out for every question, make this book an excellent learning aid during all stages of clinical studies, and particularly while preparing for medical finals. This book is a complete revision guide for trainees preparing for MRCOG Part 2 examinations. Divided into eleven sections, 500 SBA (single best answer) questions with detailed answers and explanations, cover eighteen different modules covered in the examination including surgeries, antenatal care, infertility, early pregnancy care, gynaecology, and more. Questions are based on previous examinations and each one features references, including RCOG and NICE guidelines, and suggestions for further reading. Compiled by experts from Coventry and Warwickshire NHS Trust and Birmingham Women's and Children's NHS Foundation Trust, the book also includes two practice question papers to assist students with revision. **Key points Complete MRCOG Part 2 revision guide** Features 500 SBA questions with detailed answers and explanations Includes references based on RCOG and NICE guidelines Two practice question papers are provided to assist revision **Practice Single Best Answer Questions: MRCOG Part 2** is an ideal revision resource for the new SBA format MRCOG Part 2 exam. Chapter eight consists of a complete practice SBA paper of 50 questions, to be taken under examination conditions.*

All chapters provide references for further reading to help MRCOG candidates prepare for the Part 2 exam. Ten papers of thirty questions each cover the entire syllabus, with questions pitched at the right level for the exam. This book is a question book that offers single best answers (SBA) to 300 questions related to topics in general medicine. In order to further enhance knowledge and understanding, detailed answers have been included. This book is designed as both a revision and learning aid, with questions being set in a mock-examination format which can be completed under timed conditions. The primary target audience of this book is clinical medical students who are revising for examinations. However, questions have been planned in a way that a fairly large secondary target audience will be reached as well. This includes students who are transitioning from pre-clinical to clinical. As recently qualified medical graduates who have had the option of both online and book-based questions, the authors feel that students often prefer a Single Best Answers book that aids them in advancing their medical knowledge rather than online question banks, which can often have very repetitive and one-dimensional questions. Having questions in paper format replicates examination conditions better than online question banks and, therefore, offers a more realistic revision experience. In addition, though SBAs are becoming increasingly more common as an examination style with medical schools, there are very few SBA question books available. As such, medical students will find this book highly useful in the preparation for their examinations. In September 2009, the format of the written Radiology FRCR Part 2A examinations changed. The previous negatively-marked true-false MCQs have become obsolete, replaced by 'single best answer' (SBA) questions, with candidates selecting 1 of 5 options, without negativemarking. The author team have themselves recently successfully sat the FRCR exam, and have prior experience in the SBA format, making them ideally suited to write such a book, and have produced an excellent revision guide for the new format exam. There are 750 stem questions covering all 6 modules, including a separate section with a 75 questions-per-module 'mock' examination which readers can use to test themselves against the clock, under examination conditions, to hone their technique. The questions have been extensively researched and cross-checked, with relevant topics being drawn from major radiology textbooks, as well as current radiological journals such as Clinical Radiology and Radiographics. Answers are given with detailed explanations and references are provided, which can also be used for further reading as appropriate. As a bonus the authors pass on their own proven exam tips and techniques.

Key Points

- Authors recently sat exams themselves
- Over 700 questions

An examination practice and comprehensive review of the exam syllabus, to assist candidates preparing for the Part 2 MRCOG examination. This essential pocket guide covers clinical dentistry in a concise format. All the fundamentals of clinical practice are included in a readily accessible style. Now completely revised with a wealth of new information and full colour throughout. Preparing to Pass the FRCA: Strategies for Exam Success equips you with the skills of effective revision and time management to maximise your success. The book takes each element of the FRCA exam and provides tips and techniques on how to approach the different types of questions, and includes worked examples with answers, so that you can undertake your revision accordingly. It will help you to target your revision so you can cover the breadth of topics in the FRCA syllabus and ensure that you structure your revision in an efficient way, as well as helping you to approach the exam and convey your knowledge through writing or speech correctly. Taking many common problems candidates face when preparing for this exam, the book covers motivation, effective studying, managing nerves, and scheduling time to study amongst other commitments. Focuses on the application of the basic sciences (anatomy, physiology, pathology, microbiology and pharmacology) to the management of surgical patients. This book emphasises on the physiological and pharmacological basis of post-operative care, ITU care, as well as the anatomical basis of commonly undertaken ward procedures and surgical operations. This book of 600 SBA questions and explanatory answers has been

written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). This is a companion volume to *Final FRCR Part A Modules 4-6 Single Best Answer MCQs* by the same team. *Single Best Answer (SBA) and Extended Matching Question (EMQ) examinations* are increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas. Written by a final year medical student, junior doctors and an experienced clinician, *Single Best Answers and EMQs in Clinical Pathology* provides invaluable guidance from authors who understand from personal experience that detailed and accurate explanations are the key to successful revision. This book presents 200 SBA-style and 50 EMQ-style questions arranged by sub-specialty area as well as a practice exam of random questions. A clear discussion of how the correct answer was reached and other options ruled out for every question is given at the end of each section, making this book an excellent learning aid during all stages of undergraduate clinical studies and beyond into postgraduate training, and particularly while preparing for medical finals. Eranthi Samarakoon understands the difficulties faced by students ever since the single best answer (SBA) questions were introduced in medical curricula in many countries around the world. She realises that the successful preparation for a professional examination requires understanding the style of the questions asked and the process of the examination. With these goals in mind, she has produced this set of two books containing a large number of questions in obstetrics (214) and gynaecology (214) to help the students in facing the examination with confidence. Passing the MRCOG Part 2 exam is essential to complete further training in O&G, both in the UK and for many doctors across the world. There are two annual sittings in the UK, plus the candidates sitting in Bangladesh, Egypt, Hong Kong, India, Iraq, Jordan, Malaysia, Pakistan, Saudi Arabia, Sudan, UAE, West Indies and China. It is a notoriously difficult exam, with a pass rate of c. 20%. From March 2015 there will be a change to one of the two written papers for MRCOG Part 2. Single best answer questions (SBAs) a new format - worth 40% of the total Part 2 mark. This book consists of 200 questions in the new SBA exam format, and will present a question followed by a detailed answer and feedback. *Part 2 MRCOG: SBA Questions* contains invaluable preparation and practice for candidates undertaking the Royal College of Obstetricians and Gynaecologists Part 2 MRCOG examination. It contains 400 practice questions written by a highly experienced team of MRCOG question writers, alongside detailed answers referencing each question to either an RCOG, NICE or WHO guideline, or an article in the professional journal 'The Obstetrician & Gynaecologist'. This will enable candidates to understand the reasoning and knowledge base behind the question, as well as giving them a clear reference should they wish to read further around the subject. The first part of the book introduces and explains the new format of the Part 2 MRCOG exam, giving insightful advice on the skills required to write a good SBA question. The second part of the book contains chapters matched to the 15 of the 19 modules of the core curriculum, giving a comprehensive range of questions and answers with detailed explanations and references. For anyone preparing for the Part 2 MRCOG exam, this book will provide extensive and comprehensive practice and guidance from an expert author team. Containing 240 practice questions, this is the first dedicated study resource for the SBA component of the Final FFICM examination. This book includes over 300 scenarios written in the Multiple Choice Questions (MCQs) - Single Best Answer format which characterises a sizeable percentage of the questions asked in the GPST Stage 2 Clinical Problem Solving exam. Covering all specialities present in the syllabus, it constitutes an ideal revision tool for any aspiring GP. This second edition of "320 Single Best Answer Questions for Final Year Medical Students" is an invaluable resource for medical students preparing for their final examinations. Additionally, the breadth of topics covered and detailed answers expands the versatility of this book to a larger audience including doctors preparing for postgraduate exams and other allied healthcare

professionals who will be examined in general internal medicine. This improved edition contains updated and new questions that are in line with the most recent developments in clinical guidelines as well as being written in accordance with the recent changes to medical school examinations. The 320 questions are divided into 11 commonly tested areas of medicine, surgery and sub-specialities. They are designed to provide a comprehensive coverage of the medical school curriculum and to allow practice by speciality or random selection. The questions are written in the format of medical final examinations. The answers provide detailed explanations as to how the correct answer is reached, followed by a clear discussion of how the incorrect answers are ruled out and supplementary information about other important aspects of each question. The answers are designed to allow the reader to further enhance their clinical knowledge, understanding and single best answer technique, thus making this book an excellent aid for exam preparation. This first edition of Single Best Answer Questions in Cardiothoracic Surgery provides a comprehensive revision aid to the candidates taking the specialty examination in Cardiothoracic Surgery world-wide. This new revision aid provides over 300 single best answer practice questions in Cardiothoracic Surgery and conforms to the recent changes in the format of specialty examinations in Cardiothoracic Surgery. Each question has been carefully formulated to cover an important topic in cardiothoracic surgery. The questions cover the complete specialty examination syllabus and a considerable number of these have been based on previous examination questions. This book contains a substantial number of patient-based questions or clinical vignettes that will enable prospective candidates to test their ability to integrate key basic science concepts with relevant clinical problems. In addition factual recall questions have also been included that probe for basic recall of facts. Detailed and comprehensive explanations, rather than just brief answers, to questions have been provided so that the candidates do not have to consult textbooks for clarification as is the case with most other MCQs books currently available in the market. A list of relevant references is provided at the end of each answer to enable candidates to read the most up to date journal articles on the subject. The questions in this book can be used in a number of ways: (1) as a diagnostic tool (pretest), (2) as a guide and focus for further study, and (3) for self-assessment. The least effective use of these questions is to study them by reading them one at a time, and then looking at the correct response. These over 300 practice questions are intended to be an integral part of a well-planned review as well as an isolated resource. If used appropriately, these questions can provide self-assessment information beyond a numeric score. Furthermore, the questions have been planned in such a way that this book can be used as companion to any textbook of Cardiothoracic Surgery.
