employment rate aged 16 to 64 seasonally adjusted jul sep 2022 statistics
the science of collecting analyzing presenting and interpreting data
governmental needs for census data as well as information about a variety of
economic activities provided much of the early impetus for the field of
statistics currently the need to turn the large amounts of data available in
many applied fields into useful information has stimulated both theoretical
and summary statistics is a type of descriptive statistics which is used to
summarize the set of observations with large information as simply as
possible statisticians used to describe the observation by finding the
measures of central tendency statistical dispersion statistical dependence
and the shape of the distribution
