Original. (Intermediate/Advanced) **Building Wireless Community Networks** Jan 07 2021 Building Wireless Community Networks is about getting people online using wireless network technology. The 802.11b standard (also known as WiFi) makes it possible to network towns, schools, neighborhoods, small business, and almost any kind of organization. All that's required is a willingness to cooperate and share resources. The first edition of this book helped thousands of people engage in community networking activities. At the time, it was impossible to predict how quickly and thoroughly WiFi would penetrate the marketplace. Today, with WiFi-enabled computers almost as common as Ethernet, it makes even more sense to take the next step and network your community using nothing but

freely available radio spectrum. This book has showed many people how to make their network available, even from the park bench, how to extend high-speed Internet access into the many areas not served by DSL and cable providers, and how to build working communities and a shared though intangible network. All that's required to create an access point for high-speed Internet connection is a gateway or base station. Once that is set up, any computer with a wireless card can log onto the network and share its resources. Rob Flickenger built such a network in northern California, and continues to participate in network-building efforts. His nuts-and-bolts guide covers: Selecting the appropriate equipment Finding antenna sites, and building and installing antennas Protecting your network from inappropriate access New network monitoring tools and techniques (new) Regulations affecting wireless deployment (new) IP network administration, including DNS and IP Tunneling (new) His expertise, as well as his sense of humor and enthusiasm for the topic, makes Building Wireless Community Networks a very useful and readable book for anyone interested in wireless connectivity. **Reunion Planner** Feb 26 2020 "...Family reunions, class reunions, service reunions ... Captain D. Michael Abrashoff, legendary commander of the USS Benfold, continues in the same vein of his bestselling book It's Your Ship with the knowledge he's gained from his speaking to and advising some of the top business minds in the world. The story of Captain Abrashoff and his command of USS Benfold has become legendary inside and outside the Navy. By governing his ship with his unique management techniques, Abrashoff turned the Benfold into a model of naval efficiency, with amazing cost savings, the highest gunnery score in the Pacific Fleet, and a highly motivated and top performing crew. In It's Your Ship, he first demonstrated how to bring his successful management techniques from the ship to the boardroom. Now, in his newest book It's Your Ship, in the same rugged, can-do voice, Abrashoff will focus on the leadership, motivational, and management insights and tips that he has learned from his last six years of addressing business and corporate audiences. Abrashoff's timely advice will be eminently prescriptive, and will feature anecdotes and insights from leaders of businesses large and small and from public and non-profit sectors. *Wireless Networking in the Developing World* Feb 20 2022 Provides instructions on how to build low-cost telecommunications infrastructure. Alfa Romeo Aug 22 2019 It has been 110 years since Alfa Romeo was founded. A name that has become synonymous with cars, so important has its presence been both industrially

and in motorsport. Over this long period of time, the celebrated Italian manufacturer has created cars that have become part of motoring history such as the 1900, the Giulietta, the Giulia and the Alfetta. At the same time, Alfa Romeo has enjoyed an outstanding sporting career, winning all of the most significant races and titles, among them the Mille Miglia, the 24 Hours of Le Mans, the Tourist Trophy and the Formula 1 World Championship. This book, which first appeared in 2010 when Alfa Romeo (under the title 'Alfa Romeo 1910-2010') celebrated its first century, was written by the late Maurizio Tabucchi, an expert on the history of the marque, who passed away a few years ago. His work has now been updated to include all the latest models produced from 2017 to the present day such as the Stelvio and the Giulia Quadrifoglio Verde. The book has been completed with an examination of the Alfa Romeo marque's return to competition in partnership with Sauber, demonstrating that its "sporting heart" is still beating as strongly as ever.

We Say #NeverAgain: Reporting by the Parkland Student Journalists Sep 03 2020 A journalistic look at the shooting at Marjory Stoneman Douglas High School in Parkland and the fight for gun control--as told by the student reporters for the school's newspaper and TV station. This timely and media-driven approach to the Parkland shooting, as reported by teens

in the journalism and broadcasting programs and in the Marjory Stoneman Douglas newspaper, is an inside look at that tragic day and the events that followed that only they could tell. It showcases how the teens have become media savvy and the skills they have learned and honed--harnessing social media, speaking to the press, and writing effective op-eds. Students will also share specific insight into what it has been like being approached by the press and how that has informed the way they interview their own subjects. "One thing is clear: The Parkland students are smart, media savvy, and here to fight for common sense gun laws." -- Hello Giggles
