In this wordless picture book, a young Southern farm girl discovers a runaway slave hiding behind the corn crib in the barn and decides to help him. Cambridge Reading Adventures is an international Primary reading scheme which couples an exciting range of texts with precise book-banding from the Institute of Education. What is under the ground? Find out about some amazing underground places. A complete, ready-to-go resource filled with background information, primary sources, hands-on activities, literature and internet links, mapping activities, a read-aloud play, and more! A story of friendship, courage and a bit of crime. Bridget wants a quiet life. Including, if possible, keeping her parents out of prison. Then a boy called Menzies makes her an offer she can't refuse, and they set off on a job of their own. It's a desperate, daring plan - to rescue two kids, Jamal and Bibi, from a desert detention centre. Can Bridget and Menzies pull off their very first jail break, or will they end up behind bars too? Sometimes, to help a friend, you have to dig deep. When night falls, and all is quiet, a slave girl starts to run. She follows the moon into the woods, leading her loved ones away from their master. There's only one place where he might not find them, and it's under the quilt of night. Guided by the stars, they head north in the direction of freedom. At last, the girl sees a quilt -- the quilt with a center square made from deep blue fabric -- and knows it's a signal from friends on the Underground Railroad, welcoming her into their home. And so she steps forward... Deborah Hopkinson and James E. Ransome team up again, in this stunning companion to *Sweet Clara and the Freedom Quilt*. Ransome's rich, powerful illustrations elicit all the emotion and suspense of Hopkinson's words, in a story that's sure to make your heart race and leave you breathless. **NULL** Answers questions about the background of the underground railroad, explains what it was like to be a slave and describes the hardships faced by fugitive slaves In this book, kids walk a mile in Linda Brown's shoes and wonder why they can't go to a school that's only seven blocks away. In 1954, the real Fight for Equality was just beginning--and kids need to know what really happened and why. Come sit in the courtroom with us as we watch the proceedings in the case of Brown versus the Board of Education! Stories, information and activities bring history to life in this moving portrayal of slavery and friendship, cruelty and kindness, prejudice and courage. Slavery is a sensitive topic in American history. This book provides resources and lesson plans for a week-long unit covering slavery, the Underground Railroad, and the abolition movement built around an award-winning board game. In *Freedom: The Underground Railroad*, students will take on

the role of abolitionists helping slaves reach freedom in Canada. Background knowledge, primary source documents, and detailed lesson plans on teaching slavery and using the game provide full support for instruction. Customized Freedom mini-game scenarios designed by Brian Mayer and Christopher Harris. *Game: Freedom: The Underground Railroad*. Brian Mayer. Academy Games, 2013. This book discusses the unknown and remote urban experiment of modernist social practices and dreams of a better tomorrow. It describes the history of the Warsaw Housing Cooperative not as a historical relic or a single case study, but instead analyses this working-class social housing estate - in itself an extremely interesting emancipatory project - from the perspective of contemporary urban studies. It focuses on issues related to the power of architecture, architects and the estate residents themselves: the city's performative actions, problems related to the polycentric character of the city authorities, the opportunities of building urban institutions, and social identities and urban common goods. Inspired by the history of the Warsaw Housing Cooperative, the book investigates how the estate residents, assisted by social reformers (today called urban activists), organised the urban space of performative democracy, and how they developed anti-capitalist, urban-survival strategies and created new lifestyles. It also analyses how passive tenants turned into active citizens claiming their right to the city. The inspiring book is intended for researchers in the field of performative studies, urban sociologists, critical urban studies researchers, animators of social life and urban activists. A practical guide provides educators with a way to integrate multicultural themes into the K-12 social studies curriculum, focusing on the goals of student-centered learning while also attending to standards-driven mandates. Catholic pamphlet. What if your youth group were being hunted by something far more insidious than the other side in Capture the Flag? No, your students aren't being stalked. But millions of Christians around the world suffer political repression, discrimination, imprisonment, harassment, family division, rape, and torture because of their faith. Children of believers are sold into slavery for the cost of a CD. Every 3 ½ minutes a Christian dies for the faith. In fact, during your hour-long youth group meeting, 17 Christians will be martyred somewhere in the world. *Student Underground* gently but inexorably forces open students' eyes to the anguishing, world-wide persecution of Christians—and how teenagers can start praying for, communicating with, and reaching out toward victims. Use these 4 sessions (along with the companion 60-minute, award-winning film *Behind the Sun*) as a high-impact retreat, a lock-in event, or a month of weekly meetings. *Student Underground* shows why to care. And how to help. Here's a clear, thorough, and convenient curriculum for leaders, including a plethora of quotable facts about how, why, and where Christians are suffering. Not to mention concrete and realistic plans for student action. Plus where to find a complete underground church service on [www.YouthSpecialties.com](#)—a simulation of what going to church is like for Christians in restricted countries. What activities might a teacher use to help children explore the life cycle of butterflies? What does a science teacher need to conduct a "leaf safari" for students? Where can children safely enjoy hands-on experience with life in an estuary? Selecting resources to teach elementary school science can be confusing and difficult, but few decisions have greater impact on the effectiveness of science teaching. Educators will find a wealth of information and expert guidance to meet this need in *Resources for Teaching Elementary School Science*. A completely revised edition of the best-selling resource guide *Science for Children: Resources for Teachers*, this new book is an annotated guide to hands-on, inquiry-centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade. (Companion volumes for middle and high school are planned.) The guide annotates about 350 curriculum packages, describing the activities involved and what students learn. Each annotation lists recommended grade levels, accompanying materials and kits or suggested equipment, and ordering information. These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to: Ask questions and find their own answers. Experiment productively. Develop patience, persistence, and confidence in their own ability to solve real problems. The entries in the curriculum section are grouped by scientific area--Life Science,

Earth Science, Physical Science, and Multidisciplinary and Applied Science--and by type--core materials, supplementary materials, and science activity books. Additionally, a section of references for teachers provides annotated listings of books about science and teaching, directories and guides to science trade books, and magazines that will help teachers enhance their students' science education. Resources for Teaching Elementary School Science also lists by region and state about 600 science centers, museums, and zoos where teachers can take students for interactive science experiences. Annotations highlight almost 300 facilities that make significant efforts to help teachers. Another section describes more than 100 organizations from which teachers can obtain more resources. And a section on publishers and suppliers give names and addresses of sources for materials. The guide will be invaluable to teachers, principals, administrators, teacher trainers, science curriculum specialists, and advocates of hands-on science teaching, and it will be of interest to parent-teacher organizations and parents. Since its establishment 150 years ago as the world's first urban subway, the London Underground has continuously set a benchmark for design that many transit systems around the world - from New York to Tokyo to Moscow and beyond - have followed. London Underground by Design is the first meticulous study of every aspect of that feat. Beginning in the pioneering Victorian age, Mark Ovenden charts the evolution of architecture, branding, typeface, map design, interior and textile styles, posters, signage and graphic design and how all these came together to shape not just the identity of the Underground, but the character of London itself. This is the story of some of the most celebrated figures in design history - from Frank Pick, the guru who conceptualised the design of the modern Tube with his idea of 'design fit for purpose', to Harry Beck, the creator of the Tube map, and from Marion Dorn, one of the leading textile designers of the 20th Century, to Edward Johnston, creator of the distinctive font that bears his name. Rich with stunning illustrations, London Underground by Design shows that design is about more than aesthetic pleasure, but is crucial to how we get around. A delightful and entertaining peek into the life of one very busy wombat!Ages: 3-7 MondayMorning: Slept.Afternoon: Slept.Evening: Ate.Scratched.Night: Ate.A typical day. Don't be fooled. this wombat leads a very busy and demanding life. She wrestles unknown creatures, runs her own digging business, and most difficult of all - trains her humans. She teaches them when she would like carrots, when she would like oats and when she would like both at the same time. But these humans are slow learners.Find out how one wombat - between scratching, sleeping and eating - manages to fit the difficult job of training humans into her busy schedule. English language learners (ELLs) often face the difficult challenge of learning both a new language and new subject matter at the same time. In Teaching English Language Learners Across the Content Areas, Judie Haynes and Debbie Zacarian offer strategies, tools, and tips that teachers can use to help ELLs at all levels flourish in mainstream classrooms. This book will show teachers how to * Determine their ELLs' stages of English language acquisition. * Modify assignments and assessments in different content areas for ELLs at different stages of language development. * Ensure that all ELLs participate fully in lesson activities alongside their English-fluent peers. * Communicate effectively with parents and guardians of students from diverse cultures. Real-life examples of lessons from elementary, middle, and high school that have been modified for ELLs in language arts, math, science, and social studies classes show how to effectively put the authors' recommendations into practice. A glossary of important ELL and ESL terms is included as well, for those who are new to teaching ELLs. Whether novice or veteran, all teachers of ELLs will benefit from this wonderfully practical guide to ensuring that ELLs learn English by learning content--and learn content while learning English. Collage illustrations and rhyming text spotlight the underground world of burrowing, tunneling and digging animals. Includes a "Creature Identification" page. An innovative, new multi-level course for the university and in-company sector. Business Advantage is the course for tomorrow's business leaders. Based on a unique syllabus that combines current business theory, business in practice and business skills - all presented using authentic, expert input - the course contains specific business-related outcomes that make the material highly relevant and engaging. The Business Advantage Advanced level books include input from leading institutions and organisations, such as: Alibaba, Dyson, Piaggio, and The Cambridge Judge Business School. The Teacher's Book comes with photocopiable activities, progress tests and worksheets for the DVD which accompanies the Student's Book. The underground history of the American education will take you on a journey into the background, philosophy, psychology, politics, and purposes of compulsion schooling. Hushed figures

wading by the dark of night through infested swamps, scurrying through the densest woods, silently creeping to the next way station in a long journey that could take them to dignity, freedom, and self-determination. The edge-of-your-seat adventures of fugitive slaves fascinate students and engage them in the story of the Underground Railroad. In Pursuit of Freedom shows you how to turn that student interest into a multifaceted history experience. As a social reform movement and an act of political subterfuge, the Underground Railroad responded to the moral crises of its day yet also wrought ethical dilemmas of its own. Beginning with a detailed overview of American slavery and the abolitionist movement, William Kashatus puts the Railroad into context, distinguishing history from mythology while opening rich moral and ethical questions for consideration. By examining the times hands on through social studies disciplines like geography, economics, civics, ethics, and Constitutional law, students develop their own interpretation of the Railroad and express it through reading, writing, reflection, and projects. Kashatus also offers a wide variety of hands-on methods that bring the Underground Railroad to vivid life, including how to: teach with source documents and photographs write local-history research papers think critically about the ethical questions surrounding the Railroad perform in-class dramas decode slave songs. Go beyond your textbook's facile depiction of the Underground Railroad, energize your teaching of antebellum history with In Pursuit of Freedom, and watch as your students make a journey of their own-into knowledge of the past, empathy for the people of another time, and a love of historical inquiry. Teaching Lifetime Outdoor Pursuits presents 12 outdoor pursuits you can incorporate in your outdoor program or traditional PE program. The activities are aligned with NASPE standards and presented by experts who provide instruction on content, delivery, and assessment. The CD-ROM has objectives, sample lessons, sample assessments, and programming ideas. Contains classroom activities that use folk songs to connect students to major events in U.S. history. Taken away from her mother by a ruthless slave trader, all Julilly has left is the dream of freedom. Every day that she spends huddled in the slave trader's wagon travelling south or working on the brutal new plantation, she thinks about the land where it is possible to be free, a land she and her friend Liza may reach someday. So when workers from the Underground Railroad offer to help the two girls escape, they are ready. But the slave catchers and their dogs will soon be after them... Winner of the Best Book With Facts Blue Peter Book Award 2017. Amazing real-life stories about extreme survival. Beautifully presented in a large, paperback format, and fully illustrated in colour throughout, this wonderful anthology is a treat for all the family. Be shocked and amazed by these incredible real-life stories of extreme survival, including . . . The Man Who Sucked Blood from a Shark, a sailor who survived for 133 days on a raft in the Atlantic when his ship was torpedoed, using shark's blood in place of fresh water. The Girl Who Fell From the Sky, a teenager who fell 2 miles from an aeroplane and trekked through the Amazon jungle to safety. The Woman Who Froze to Death - Yet Lived, a woman who was trapped under freezing water for so long her heart stopped. Four hours later, medics managed to warm her blood enough to revive her. Combining classic tales such as Ernest Shackleton's Antarctic voyage, as well as more modern exploits such as the adventurer who inspired the movie 127 Hours, these astonishing stories will be retold by young readers to all of their friends. 'A gorgeously presented hardback book, full of incredible real-life stories of extreme survival . . . Ultimately an inspirational book, beautifully illustrated.' Angels and Urchins 'True-story fans will love this.' Inis Children's Books Ireland 'A wonderful mixture of the scariness of peril and the glorious uplift of survival. It's insightful, inspirational and all absolutely true.' Bookbag This wonderful new edition of Poems on the Underground is published to celebrate the 150th anniversary of the Underground in 2013. Here 230 poems old and new, romantic, comic and sublime explore such diverse topics as love, London, exile, families, dreams, war, music and the seasons, and feature poets from Sappho to Carol Ann Duffy and Wendy Cope, including Chaucer and Shakespeare, Milton, Blake and Shelley, Whitman and Dickinson, Yeats and Auden, Seamus Heaney and Derek Walcott and a host of younger poets. It includes a new foreword and over two dozen poems not included in previous anthologies.
