Lutherans and the Longest War Oct 03 2020 The dialogue between American

Lutherans about foreign policy during the contentious decade provides an interesting

perspective on the historiography of the US during the Vietnam era, says Settje, because they have never been a homogeneous or unified group, and represent a broad spectrum of religious, political, and diplomatic

views not particularly associated with liberal or conservative positions. While he does look at some Lutherans who took public action, his focus is on debates within the denomination.

Billboard Apr 28 2020 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Dead Possums Are Fair Game

Sep 14 2021 Ella has two major phobias in life: spiders and mathematics. She firmly believes that anything with more than four legs should not exist. She also believes the world would be a better place without word problems or long division. That being said, she's fascinated by science. So when her class finds a dead opossum in the playing field one morning, she's intrigued by rigor mortis and how long it will take for the opossum to unstiffen. Science is so much more interesting than math. Later that day, Ella is certain she must have heard wrong when her teacher

announces that there will be no more math tests for the rest of the year. And she isn't wrong—it is too good to be true. Her teacher explains that instead, the class will be having its first ever math fair. Ella's group is assigned the topic of time conversions, something Ella's been struggling with for a while. This is hardly Ella's idea of fun. But Ella's mom is quick to point out that math and science aren't so very different—she suggests that Ella imagine she's doing a science experiment instead of a math project. With a little imagination and some inspiration from their friend

the opossum (now named Morty, short for rigor mortis), Ella and her group come up with a project that gets them excited about math—and they might even have a chance to win at the fair! Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes

bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
