Translated and with an introduction by Robert Greene. In 1984, French film producer Gerard Lebovici was found dead in his car, the victim of an apparent assassination. An immediate media frenzy ensued, with much of it surrounding Lebovici's close friendship with Guy Debord, one of the founders of the Situationist International, and a highly controversial public figure. In this book, Debord offers his in-depth analysis on the still unsolved crime, as well as a scathing critique of the mass news media. "A...nice touch is where he mentions that he actually has no higher opinion of the consumers of the media that he does of the disseminators

of it"-Richard Hell. It is "a fascinating document...passionate Dubord, sometimes self-aggrandizing, sometimes reflective, and always illuminating"-Sadie Plant. "Those who have done me the honor of reading my previous writings will probably receive no strong impression of novelty from the present volume; for the principles are those to which I have been working up during the greater part of my life, and most of the practical suggestions have been anticipated by others or by myself. There is novelty, however, in the fact of bringing them together, and exhibiting them in their connection, and also, I believe, in much that is brought forward in their support. Several of the opinions, at all events, if not new, are for the present as little likely to meet with general acceptance as if they were. It seems to me, however, from various

indications, and from none more than the recent debates on Reform of Parliament, that both Conservatives and Liberals (if I may continue to call them what they still call themselves) have lost confidence in the political creeds which they nominally profess, while neither side appears to have made any progress in providing itself with a better. Yet such a better doctrine must be possible; not a mere compromise, by splitting the difference between the two, but something wider than either, which, in virtue of its superior comprehensiveness, might be adopted by either Liberal or Conservative without renouncing any thing which he really feels to be valuable in his own creed. When so many feel obscurely the want of such a doctrine, and so few even flatter themselves that they have attained it, any one may, without presumption, offer what his own thoughts, and the best that he knows of those of others, are able to contribute toward its formation"--Preface. Joseph de Maistre's Considerations on France (1797) is the best known French equivalent of Burke's Reflections on the Revolution in France. The work of the self-exiled Maistre presents a providential interpretation of the French Revolution and argues for a new alliance of throne and altar under a restored Bourbon monarchy. Although Maistre's influence within France was delayed until the Restoration, he is now acknowledged as the most eloquent spokesperson for continental conservatism. This edition features an Introduction by Isaiah Berlin. This study guide is meant as an accompaniment to the book Strategic and Tactical Considerations on the Fireground, Third Edition written by retired Deputy Chief James P. Smith of the Philadelphia, PA, Fire Department and published by Brady/Prentice-Hall. It is not meant to be an all-inclusive text or to answer all-encompassing questions; it is meant to reinforce the text after it is read. In many cases the questions are narrow in design and emphasize specific points made within the text. "It is wonderful to have David Lowenthal's splendid translation of Montesquieu's Considerations on the Causes of The Greatness of the Romans and Their Decline back in print.

This neglected masterpiece deserves attention from all who are concerned with self-government -- whether their focus is on its history or on its prospects in our own time." -- Paul A Rahe, Jay P Walker Professor of History, University of Tulsa. This title made a deeply original contribution to an ongoing political and historical debate in early 19th-century France and Europe. As a representative of classical liberal opinion, Staël's voice, which Napoleon Bonaparte tried to silence by censorship and banishment, is an important contribution to revolutionary historiography.
