Atlas Foot and Ankle Surgery, Second Edition Jan 10 2021 The second edition of An Atlas of Foot and Ankle Surgery builds on the success of the first, with an international selection of expert contributors to represent the current practice of foot and ankle surgery throughout the world. The material in this atlas is presented according to how foot and ankle pathology is encountered by most orthopaedic surgeons in their practice. Some chapters deal with individual common procedures, such as the soft tissue procedure for hallux valgus: in these, technical details and variations of technique are presented. Other chapters deal with diagnoses, such as metatarsalgia or cavus foot, and a number of different surgical treatment options are described. The scope of each chapter exceeds surgical instructions alone: the respective pathology is detailed, as are diagnostic techniques

and alternative methods of treatment. The Atlas of Foot and Ankle Surgery should be of interest not only to inexperienced specialist surgeons, but also to the general orthopaedists and surgeon in training with an interest in disorders of the foot and ankle.

Foot & Ankle Arthroscopy Jan 28 2020
Arthroscopy has been well established as a major treatment option in the Knee and Shoulder. When the first edition of this book was published in 1995, the use of arthroscopy in the treatment of foot and ankle problems was still in its infancy. Since that time further advances have been made in the use of arthroscopy in foot and ankle surgery. There is still a steeper learning curve for this procedures than for open surgery; so, the

need for a practical manual is greater now than when this book was published. The book covers both the basics of equipment, instrumentation and surgical anatomy, but also the practical steps a surgeon must take for each procedure.

Surgical Exposures in Foot & Ankle Surgery May 14 2021 "The publication of Surgical Exposures in Foot and Ankle Surgery--The Anatomic Approach reflects the great advances seen in this field in the last decade.
